IV. Strategies

- 4.1 E-Books:** The use of E-Books for the core subjects, to reduce the bag weight for all grade levels (K-Gr 12).
- 4.2 Student assignment:** Provide hand-out sheets for the students as homework and submit their assignments electronically as well.
- 4.3 Encourage the use of ergonomic school bags with individualized compartments to efficiently hold books and devices, using the 2wide shoulder straps and wearing them properly.**
- 4.4 Using the classroom bookshelf is available in the classroom to store their materials and class resources.**
- 4.5 Reising the students' awareness about the importance of the student bag weight and its impact on their spinal health and overall body growth.**

V. Monitoring and Review

The school academic and administrative teams are committed to monitoring the students' bags as a part of their ongoing supervision tasks, while the school clinic has embedded awareness sessions in their yearly health awareness program.

VI. Tips for Choosing a good backpack:

- 6.1** Choose a Backpack with wide padded shoulder straps.
- 6.2** Wear both shoulder straps to prevent shoulder alignment issues.
- 6.3** never overpack! Your backpack should not exceed 20% of your body weight (use the bag weight table attached).
- 6.4** Always lift your backpack by squatting down and using your legs to lift not your back.
- 6.5** Look for a backpack with a waist and chest belt to better distribute heavy Loads.
- 6.6** Position the Backpack below your shoulder and above your hips.
- 6.7** A backpack with multiple compartments can better distribute the load.
- 6.8** Encourage your child to remove their backpack when waiting in line or standing for a long time.
- 6.9** Clean and reorganize your backpack every weekend according to the weekly plan and remove unused items that may be weighing you down.
- 6.10** Look for a backpack that stands upright when placed on the ground.
